

FLOBBY - Project Overview

INTRODUCTION

FLOBBY is an enigmatic, gooey entity neither human nor animal, but a curious blend of absurdity and brilliance. Emerging from the depths of forgotten memes and digital lore, it simply appeared one day and said bloup. Since then, it has absorbed trends, humor, and the dreams of creators who believe in the power of memes to move markets.

Becoming the gooiest, dankest, world-dominating meme coin. Bloup.

We're not here to sell you pipe dreams or flashy Meme jargon. Our focus is crystal clear: build a trustworthy, community-driven token with fair, no-nonsense tokenomics. No empty promises just a project powered by genuine belief, long term commitment, and collective energy.

What sets us apart? We don't need hype to make noise. There are no fake partnerships, no unrealistic roadmaps, and no gimmicks. Just a real community, growing organically, with a clear vision: to create something fun, fair, and purpose-driven.

We might not be the world's top memecoin yet, but with integrity and unity, we're here to change the game.

So come along. Let's grow, connect, and build something meaningful together.

VISION

To become the gooiest, LOL-iest, meme-drippin coin on Solana.

No to the moon. No next big thing talk.

Just vibes, degeneracy, and gooey giggles.

We're not here to change the world.

We're here to bloup it.

We believe that a project grounded in clear intentions, full transparency, and complete community ownership can become a true force in the crypto world one that delivers real value to its supporters.

FLOBBY - Project Overview

This isn't about chasing hype. It's about building something meaningful and sustainable.

By prioritizing trust, openness, and long-term commitment, we're creating a token that people can genuinely believe in, not just for now, but for the future.

TOKENOMICS

Total Supply: 10,000,000,000 \$FLOBBY

LP Locked: 3 months

Team Allocation: 0%

Transparent Wallets: Published at launch

Allocation Breakdown

- Airdrop / Community: 40% - Distributed via Zealy quests, Discord activity, contests
- DEX Liquidity (Burned): 30% - Liquidity on Raydium LP tokens permanently burned
- Engagement / Rewards: 10% - Meme contests, XP farming, Zealy quests, community giveaways
- DAO Reserve: 10% - Reserved for governance through community voting
- Marketing / Partnerships: 10% - Influencers, X (Twitter) campaigns, listings, strategic collaborations

THE TEAM

We're not suits. We're a small, family-led crew powered by pixels, memes, and a deep love for crypto chaos.

At our core, we stand for transparency, fairness, and staying true to who we are.

Having experienced the highs and lows of the crypto space, we know what adds real value and what doesn't.

Armed with hard lessons and soft slime, we're creating a token that actually sticks one that gives the community what it truly deserves: trust, ownership, and goals that don't feel like a fever dream.

Why Join Flobby?

FLOBBY - Project Overview

- Fair and Transparent Tokenomics
- Strong Community Focus
- No Hype, Just Integrity
- Unique and Fun Vision
- Community Ownership

DISCLAIMER

\$Flobby is a dedicated community-driven initiative.

It does not offer, staking, governance or utility (yet), but it aims to strengthen its holders through complete openness, ownership, and a robust shared identity. Its worth will increase through collective power, exposure, and confidence.

FINAL THOUGHTS

The \$Flobby transcends the typical token.

It embodies a vision, courageous, transparent, and fueled by community striving to claim the funniest meme spot through honesty and resilience. We're not here to chase trends. We're here to create. Embrace the journey. Shape tomorrow. Rise as Flobby.
